EXPERIENCE (2.5+ YEARS)

INVOLEAD | SOFTWARE DEVELOPER

Jan 2024 – Present | Bhubaneswar

B2B Marketing Analytics Platform

- Developed and maintained interactive dashboards for B2B marketing platform using Next.js, Chart.js, Tailwind CSS, MongoDB, and Flask.
- Built complex data visualizations including charts, tables, and editable metrics with highly interactive UI elements.
- Integrated real-time and AI-predicted data with dynamic recalculations, enabling user inputs and exportable analytics, while building reusable dashboards.

AI Conversational Interface & Interactive Avatar System

- Developed a real-time conversational UI with streaming responses and GPT-like multi-turn interactions.
- Implemented interruption handling, live edits, and feedback loops for a more natural chat experience.
- Integrated voice features (speech-to-text and text-to-speech) for seamless interaction.
- Designed a 3D avatar that reflects conversation stages, enhancing engagement and UX.

PROJECTS

ED-TECH PLATFORM | MERN STACK

June 2022 – April 2023

- Spearheaded the development of **StudyNotion**, utilizing the powerful **MERN** stack (MongoDB, Express.js, React.js, and Node.js) to create a robust educational platform
- It provides an engaging learning environment for students and connects global instructors to showcase their expertise developed with a focus on full-stack development.
- Features: User-Friendly Dashboard, Diverse Content Delivery, Personalized Learning Paths, Authentication and Authorization
